

A black and white photograph of a hand holding a small acorn. The hand is positioned in the center-left of the frame, with the thumb and index finger gently cradling the acorn. The acorn is the focal point, showing its textured cap and smooth nut. The background is a soft-focus, textured surface, possibly fabric or a wall, creating a sense of depth and texture.

*“Your generous gift represents a commitment...to the research that is moving us closer to eliminating the threat of cancer. Indeed each hypothesis, each investigation, each finding, is helping us to dismantle the defenses of cancer. The generosity of donors like you allows us to stay at the forefront of research-based patient care...we appreciate your dedication...”*

—John Mendelsohn, M.D., president, The University of Texas M.D. Anderson Cancer Center
